

15HLE & 15BHLE

Type HLE General Purpose Current Limiting Fuses
 Minimum Melting Time-Current Characteristics - 15.5 kV
 Curves are based on tests starting with fuse unit at ambient temperature of 25 C and without initial load. Curves are plotted to minimum test points so all variations should be positive.

CURVE 70546601
 April 1999
 Reference # 705466
